

Labs Integration with Health Gorilla

Labs integration with Health Gorilla enables clinical teams to order labs through 100s of lab vendors. Lab results can also be received electronically, and care teams are notified when they are available to view.

When the Health Gorilla Labs integration is configured, a Labs (beaker icon) Action button will be visible under the Patient's Profile. This is how a care team member will launch into Health Gorilla to Order Labs and view information about orders and results for a patient.

The screenshot shows the welkin W+ interface. On the left is a green sidebar with navigation options: Care, Home, My Tasks, My Calendar, My Patients (highlighted), Relationship Therapy, Encounters, Insights, and Profiles. Under 'My Patients', there is a sub-menu with 'Assessments', 'Documents', and 'Encounters'. A red box highlights a beaker icon, which represents the Labs integration. The main content area shows the 'Care Plans' for John Smith, created by Angie Benoit on Sep 3, 2021. Below this is the 'Patient Overview' section, which states: '61 yo male with CHF. Does not exercise or eat healthy. Need to work on improving lifestyle habits.' This section was created by Angie Benoit on Nov 19, 2021. Below the overview is the 'Active Goals' section, which lists two goals: 'Eat more green foods' (Nutrition, High priority) and 'Improve Cardio' (Exercise, High priority), both created by Angie Benoit on Nov 19, 2021. The interface includes a search bar, notification bell, and user profile icon at the top right.

Health Gorilla Sub-Menu

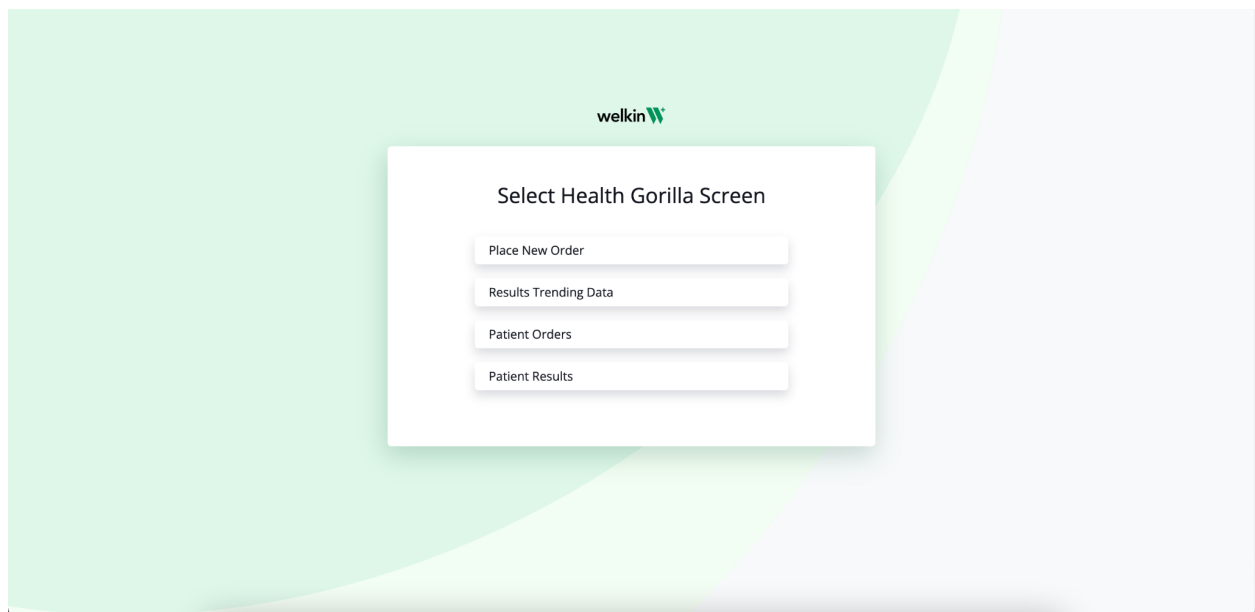

Using the Labs Action button, a menu of items will be presented with the actions that are supported.

Place New Order - Create a new lab order for the patient

Results Trending Data - View historical lab results in a graphical format

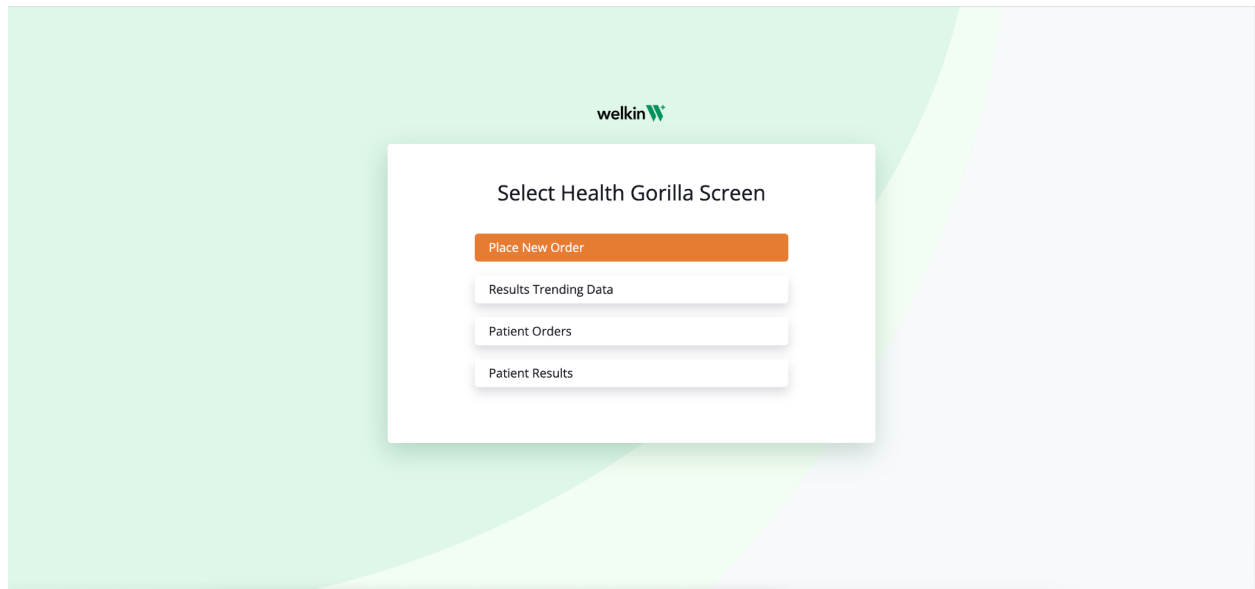

Patient Orders - View all lab orders that have been created for the patient

Patient Results - View all lab results that have been received for the patient

Ordering Labs

To order a new lab test, choose “Place New Order” from the menu. This will open the Diagnostics Order screen in Health Gorilla.

A list of Lab Vendors will be displayed to choose from. The green “E” next to the lab vendor name symbolizes that the lab vendor is electronically connected, meaning lab orders can be sent and received electronically for this vendor.

NOTE: For Lab Vendors that are not set up for electronic orders/results, you can still create orders and submit the Lab Order via Fax or send a paper copy via Patient or other means.

Select a vendor and click the green “Continue” button to move to the next step.

Select a vendor on the left

Choose all lab tests that are to be included in the order, by selecting the lab test name OR use “Quick Orders” to choose a group of lab tests that you have saved as a quick order. In this example, the “A1 RBC Antigen Typing” test and “Everyday Orders” Quick Order was selected. The “Everyday Orders” includes a Lipid Panel and CBC, resulting in an order with three lab tests.

View Trending Data

The Results Trending Data menu item will show you a graphical view of the lab results for the patient.

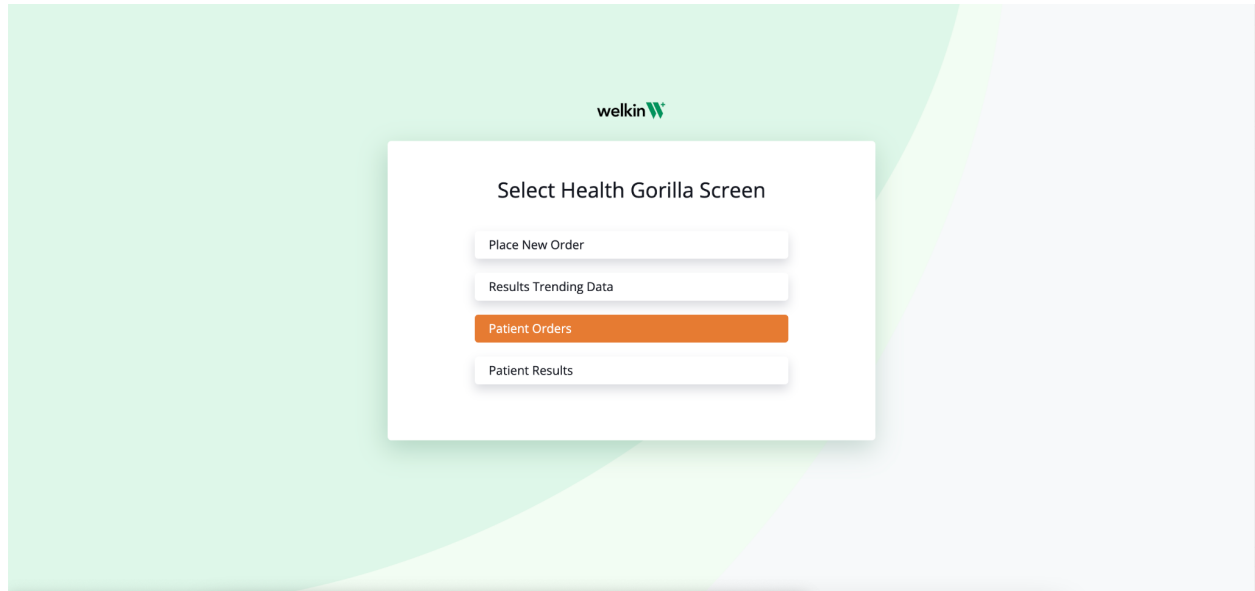

Each test result will display on the graph and allow you to choose a date to view the detailed results.

View Patient Orders

The Patient Orders menu option will allow you to view all orders that have been placed for the patient.

This provides a chronological view of all orders that have been placed for this patient via Health Gorilla. There are many actions that can be performed on the order from here. The most common would be “Change” or “Reorder”, which would create a new lab order for this patient. Any documentation that is completed for the order in Health Gorilla will be saved in Health Gorilla. It does not get saved in Welkin.

HEALTH-QUEST™

In addition to receiving the lab result PDF as a document in Welkin, a Task and Task Notification will be created to make the care team members aware of the lab result being available for the patient.

The screenshot shows the Welkin interface for a patient named John Smith. The left sidebar contains navigation options: Care, Home, My Tasks, My Calendar, My Patients, Relationship Therapy, Encounters, Insights, and Profiles. The main content area is titled 'Documents' and displays a table of uploaded documents.

Upload Date	Upload By
Nov 19, 2021 10:37 AM	API_CLIENT:VPOSKZBSBPFN
Nov 19, 2021 10:15 AM	API_CLIENT:VPOSKZBSBPFN
Sep 3, 2021 2:37 PM	API_CLIENT:VPOSKZBSBPFN
Sep 3, 2021 11:15 AM	API_CLIENT:VPOSKZBSBPFN

On the right, a 'Notification' panel is open, showing a list of notifications. The first notification is 'Task "Lab Results Available" was created' with a 'HIGH' priority and a 'Task' icon, dated 'OCT 13, 2021'.

A Task for the Primary contact for the patient is created and the whole Care Team is notified of the Task for Lab Result.

The screenshot shows the Welkin interface for a patient named John Smith. The left sidebar contains navigation options: Care, Home, My Tasks, My Calendar, My Patients, Relationship Therapy, Encounters, Insights, and Profiles. The main content area is titled 'My Tasks' and displays a table of tasks.

Task	Patient Name	Priority	Due Date	Assignee	Created By
<input type="checkbox"/> Lab Results Available	John Smith	High	Nov 19, 2021	Angie Benoit	API_CLIENT:VPOSKZBSBPFN
<input type="checkbox"/> Lab Results Available	Betty Boo	High	Sep 3, 2021	Angie Benoit	API_CLIENT:VPOSKZBSBPFN
<input type="checkbox"/> Lab Results Available	Roger Rabbit	High	Jul 16, 2021	Angie Benoit	API_CLIENT:VPOSKZBSBPFN

On the right, a 'Lab Results Available' task detail panel is open. It shows the task status as 'To Do' and includes a description: 'Please review lab results for patient. They can be viewed from the Patient's Document list.' The patient is 'John Smith' and the assignee is 'Angie Benoit'. The due date is '11/19/2021' and the priority is 'High'.

Additional Note

When a clinician launches into Health Gorilla from Welkin for the first time, they will be presented with a Terms of Use agreement. This is a one time step, once the agreement is accepted, you will not see this again and can proceed to use Health Gorilla to place your Lab Orders.
